

Helmut Hechinger Electromechanics (Pinghu) Co., Ltd.

Experience, progressive thinking, adaptability and quality awareness - these are the sign of the Hechinger Group. So we have grown into a globally successful family business with over 1200 employees, and it currently includes several legally independent companies: the parent company Helmut Hechinger GmbH & Co. KG, the Hechinger Electronic GmbH & Co. KG, the Hechinger Hungary Kft., and Helmut Hechinger Electromechanics (Pinghu) Co., Ltd., which started production in 2015.

In Pinghu, we produce magnet coils, injection molded parts and eletromechanical sub-assemblies.

Products are developed and manufactured according to customer requirements with our engineering. The customer makes his specifications, which are implemented by us 1:1.

We work with highly automated equipment. Our employees are constantly trained in our plants in Germany, therefore we can always up to date with the latest technology.

Precision and Quality is our core competence.

Welcome to Visit our Pinghu Plant

Walter Wollmann - COO
Plant Pinghu

Competitive Advantage by Quality and Development by Innovation

Core Competences and outstanding Abilities:

Plastic Injection Molding: Various machines \leq 50 tons of vertical injection molding machines and 120 tons of horizontal injection molding machines are ready to produce precision parts from different materials.

Winding: Precision winding and assembly line, providing electromagnetic coils according to your requirements

New Competency – an extraordinary result in a challenging time!

Special filter for protecting masks: Model: KN95 and FFP2

Highly qualified teams in the production and in our quality department will handle your products.

Certifications: ISO 9001- 2005, ISO 14001, plan to pass IATF 16949 in 2020

Our office address:

Helmut Hechinger Electromechanics (Pinghu) Co., Ltd.
Workshop 1, 2199 Hongjian Road
Pinghu Economic-Technological Development Zone,
Zhejiang Province, China, 314200
