

# IMS Gear Taicang Co. Ltd.

## Introduction of IMS Gear

# IMS:GEAR

IMS Gear is among the leading gear engineering companies. From its' unique gear design solutions to optimized modules and gear systems, the company has become firmly established in the automotive industry and in applications for industry and E-mobility concepts. It stands out due to deep development know-how, broad spectrum of manufacturing capability, high process competence and relevant internationalization.

IMS Gear takes customer proximity literally with manufacturing sites in Germany, the USA, Mexico and China. The enterprise employs approximately 3.100 employees worldwide.

The location in Taicang was founded in 2009 and is growing ever since. Today we have around 600 employees in this location and our plan shows continuous growth. Our focus is not only automotive but also other industrial application which demands gears and gear systems.
