

## VEDAG (China) Trade Co., Ltd.

Vedag China Ltd. –based on the KnowHow of Vedag GmbH, Germany, the eldest producer of waterproofing material in Europe, offers waterproofing solutions for customers in the People’s Republic of China since over 20 years. The main material is bitumen, well approved in waterproofing since decades. In the opposite of local producers Vedag bundles the different layers - adapted to the needs of the project or the idea of the investor - in waterproofing systems. For original quality imported material can be offered, for more pricesensitive requests excellent local production can be offered. For all roofs suitable necessary accessories are available as well as trained application teams. Vedag’s waterproofing system finds application for roofs and foundations of residential or industrial buildings, bridges, parkdecks and balconies. There are solutions for new buildings as well as renovation, for green roofs as well as for solar roofs or roofs as additional relaxing space.
